

*May we connect
YOU
to what matters?*

Through the generosity of donors like you, more than \$2.4 million in grants and scholarships have been awarded throughout Orange County since the Fall of 2001 from funds held with the Orange County Community Foundation. And thanks to the permanence of endowed funds, support of charitable causes and programs will continue in perpetuity through the funds held with the Foundation.

We can assist you in contributing to a fund that supports a cause that you feel strongly about, or guide you through the process of creating a new fund.
